

WARNING

PIPE CUTTER SAFETY

Any piece of equipment can be dangerous if not operated properly. **YOU** are responsible for the safe operation of this equipment. The operator must carefully read and follow any warnings, safety signs and instructions provided with or located on the equipment. Do not remove, defeat, deface or render inoperable any of the safety devices or warnings on this equipment. **IF** any safety devices or warnings have been removed, defeated, defaced or rendered inoperable, **DO NOT USE THIS EQUIPMENT!!!**

⚠ WARNING: This product can expose you to chemicals including Chromium from steel products which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65warnings.ca.gov

Danger: This tool has & creates multiple pinch points. Keep hands & other body parts clear at all times.

Danger: Blade is sharp keep hands & other body parts clear at all times.

Caution: The cutting process creates burrs & sharp edges on the ends of the pipe. Handle cut pipe carefully.

APPLICATION:

Suitable for cutting pipe from 2" thru 4" in diameter.

OPERATION:

Open cutter jaws, by turning T-Handle counter-clockwise, until sufficient clearance is gained to mount cutter over pipe to be cut.

Close jaws, by turning T-Handle clockwise, until jaws close on pipe. **DO NOT FORCE.** Just close jaws until snug.

Rotate pipe cutter clockwise around pipe. At each complete revolution, tighten jaws to increase depth of cut.

Continue rotating pipe cutter around pipe, until pipe has been completely severed.

DO NOT wiggle cutter back and forth to break pipe off, as such action will fracture the cutting wheels and render the cutter useless.

SAFETY PRECAUTIONS:

Gloves should be worn when cutting pipe, to prevent cut fingers and hands from sharp edges, after pipe has been cut.

Do not attempt to repair or disassemble tool or component parts. If trouble develops, return tool to Rental Yard.

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. **IF** there is any doubt as to the operation or safety of the equipment, **DO NOT USE!! CALL A TOOL SHED IMMEDIATELY!!! FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN INJURY OR DEATH**
